

**FOR IMMEDIATE RELEASE**

**SCIENTEL WIRELESS EXPANDS CONVERGENT VOICE OFFERING**

*Randy Swets will be joining the Wireless Security Integrations group as the new Manager of Convergence Voice Technologies with over 29 years of experience in 2-Way Radio Communications.*

**LOMBARD, IL, - October 5, 2009** – Scientel Wireless, LLC today announces a strategic expansion of their core networking and microwave business by appointing Randy Swets as Manager of Convergence Voice Technologies reporting to Dennis Broderick, Vice President of Security Integration.

“Strategically, we feel it is important to hire the best available resources. “ said Dennis Broderick, VP, Wireless Security Integration;” Randy is seasoned professional that will increase our capabilities in the Midwest region and then replicate that success to our Texas and Hawaii offices. We are excited to have him join our team.”

Randy has over 29 years of wireless voice experience and is well respected in the 2-Way Communication Industry. Randy’s key responsibility will be growing Scientel’s Convergence Voice Business through its existing sales force which is focused on State & Local Government, Health Care and Education vertical markets.

“Over the last few years the digital convergence of voice, data and video over a single network has dominated the wireless market.” said Nelson Santos, President of Scientel Wireless. He continued saying; “Mr. Swets will provide Scientel the ability to provide our customers with a full spectrum of products and services in the markets that we serve.”
